

## The Laundry

Grace and Garry are going with their laundry to the nearest Laundry Store. It's the first time they are going alone.

They buy tokens as they step inside and are taken to a huge hall where they see washing machines lined next to each other. Some were full and were either spinning or draining or

rinsing. The clothes were going rouuuuund inside them and they had fun watching them going circles.

They selected an empty machine and put in their laundry. Next, they put a few drops of washing detergent and fabric softener and switched the machine on. "Whiiiiizzzzz, Whiiiiizzzzzzzzzz, Grrrrr", went the machine as the clothes inside them got soaked and then spun and then got squeezed.

It took half an hour for the whole washing cycle to end. "Here you are", said Garry, "Our clothes are ready to be taken". They fill up the clothes in a big hamper their mother had given to them and take it home.

Mom is happy with them and gives each of them a half bar of chocolate, a packet of crisps and a pack of juice.
