Summer Fun

It's the first day of summer vacations for Aisha and Atiya. They are just too excited, for they love summers! They like to go to the beach, bask in the hot sun, build sand castles and dip their feet in cold water of the sea.

They also love to devour ice creams and ice lollies to beat the heat during afternoons. Orange flavored ice lolly is

Aisha's favorite. Also, they love to feel the cool, pleasant evening breeze blow over them in their terrace.

Summer season has a longer day time and the sun sets late than in winters. So, summer is the time when you can play with your friends in the evening or go for cycling without having to worry about it being dark.

Aisha and Atiya always begin their swimming classes during summers. They love to swim and do many laps together. Swimming is a fun exercise and so is cycling and a game of cricket.

Summer season is therefore, the best season of the year as it brings with it the joys of fun and pleasure.

Summer Fun

Answer the following questions.
